

Cities / Towns in New Mexico and Southern Colorado

This list identifies the majority of cities/towns and their current county. Many county lines changed since the original ones were established, so the location of records also changed. "[Counties in New Mexico](#)" identifies dates counties were first established, and then as they changed. Recommend that you also refer to "*The Place Names of New Mexico*" by Robert Julyan if the city/town you are looking for is not here.

When viewing the list, remember to look under "El" and "Las" and "Los" which may be part of the name.
